

AP can help you

Implants & Telescopes

Allpoints Dental Laboratory want to make your life as easy as possible. We offer every type of restoration you could possibly need - and if you don't see it on our list, just give us a call.

We're particularly keen to reduce the cost of items such as implants and telescope systems (one of our Master Technicians is German!). The attachments can be quite expensive, so if you supply the components you need, you'll be able to avoid the fee for ordering parts on your behalf.

We're happy to do one unit or a whole mouthful, and our technicians can handle almost any system you can think of.

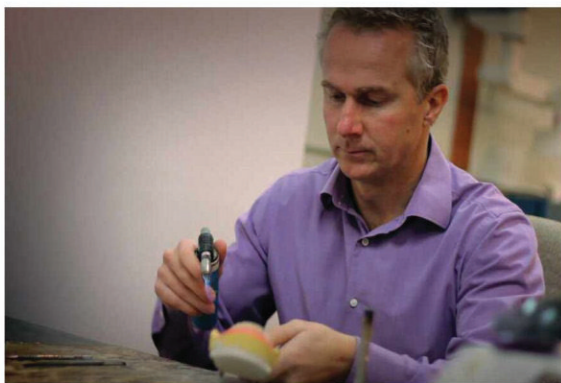

Good advice

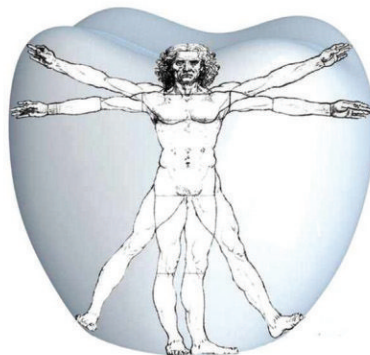

If you have any questions, don't hesitate to ask. There's always someone at the end of the phone. Or alternatively email us with some photos or x-rays.

Keeping you up-to-date

Please refer to our website for up to date news. We have recently started making many new ortho devices, and can give you details on request. Our lab is here to help.

HOW TO BENEFIT FROM OUR SERVICE

MAIL ADDRESS LABELS & PRESCRIPTIONS

Please phone or email our office, and we'll be glad to forward you some address labels and prescription forms. Further stationery will be sent with your completed work.

SENDING US YOUR WORK

Whenever you send work to us please ensure you have disinfected it, and wrapped it carefully to avoid being damaged in transit. Please also make sure it is sealed water tight, as there's nothing worse than unwrapping a soggy prescription form.

FIRST IMPRESSIONS ARE IMPORTANT!

Please avoid sending models whenever possible. We prefer to pour them, and would appreciate you using a good silicone or rubber impression to avoid distortion. We prefer metal trays if you can, and will ensure you get them back.

COMPLETION DATES

We plan to send your completed work back within ten days from arrival at our office. If you need a faster service please contact us and we will do our best to oblige. However please be aware there will be an extra charge for this.

TERMS & PAYMENT

Invoices will be emailed to you on the day of despatch, so you will know when to expect the work to arrive. Statements are sent at the end of each month. Accounts should be settled by the end of the following month.

SHADES

We follow the Vita shade guide. If you are using any other system please give the equivalent Vita shade.

BITE REGISTRATIONS

Bite registrations are appreciated *always* - even if you don't think them necessary. On the odd occasion where we needed one, and it wasn't sent it could save calling the patient back.

BEAUTIFUL TEETH

We believe in beautiful white teeth. We don't make hygienic metal collars unless you specifically request them.
